Desert Naturopathic Health

Dear Patient,

Thank you for your interest in naturopathic care and the opportunity to work with you.

Naturopathic medicine is an approach to care that provides an array of treatment

options. More importantly, I believe naturopathic medicine offers a distinctly different way

to thinking about health.

The following pages are the start of our comprehensive discussion to learn about you.

This form is somewhat long, but I appreciate your time to thoughtfully answer these

questions.

The first office visit is where we gather the largest amount of information. Accordingly,

this visit can last 1 - 1 ½ hours. In order for me to prepare for this visit, I kindly request

that this form be mailed or faxed to Desert Naturopathic Health at least 2 days prior

to your first appointment. Additionally, if you have recent laboratory work or pertinent

medical records, please bring these to the visit.

Thank you again for your interest in working with me. I look forward to meeting you.

Sincerely,

Jason W. Jensen, NMD

Naturopathic Physician

ARBITRATION AGREEMENT

Article 1: Agreement to Arbitrate: It is understood that any dispute as to medical malpractice, that is as to whether any medical services rendered under this contract were unnecessary or unauthorized or were improperly, negligently or incompetently rendered, will be determined by submission to arbitration as provided by state and federal law, and not by a lawsuit or resort to court process except as state and federal law provides for judicial review of arbitration proceedings. Both parties to this contract, by entering into it, are giving up their constitutional right to have any such dispute decided in a court of law before a jury, and instead are accepting the use of arbitration.

Article 2: All Claims Must be Arbitrated: It is also understood that any dispute that does not relate to medical malpractice, including disputes as to whether or not a dispute is subject to arbitration, will also be determined by submission to binding arbitration. It is the intention of the parties that this agreement bind all parties as to all claims, including claims arising out of or relating to treatment or services provided by the health care provider including any heirs or past, present or future spouse(s) of the patient in relation to all claims, including loss of consortium. This agreement is also intended to bind any children of the patient whether born or unborn at the time of the occurrence giving rise to any claim. This agreement is intended to bind the patient and the health care provider and/or other licensed health care providers or preceptorship interns who now or in the future treat the patient while employed by, working or associated with or serving as a back-up for the health care provider, including those working at the health care provider's clinic or office or any other clinic or office whether signatories to this form or not.

All claims for monetary damages exceeding the jurisdictional limit of the small claims court against the health care provider, and/or the health care provider's associates, association, corporation, partnership, employees, agents and estate, must be arbitrated including, without limitation, claims for loss of consortium, wrongful death, emotional distress, injunctive relief, or punitive damages.

Article 3: Procedures and Applicable Law: A demand for arbitration must be communicated in writing to all parties. Each party shall select an arbitrator (party arbitrator) within thirty days and a third arbitrator (neutral arbitrator) shall be selected by the arbitrators appointed by the parties within thirty days thereafter. The neutral arbitrator shall then be the sole arbitrator and shall decide the arbitration. Each party to the arbitration shall pay such party's pro rata share of the expenses and fees of the neutral arbitrator, together with other expenses of the arbitration incurred or approved by the neutral arbitrator, not including counsel fees, witness fees, or other expenses incurred by a party for such party's own benefit.

Either party shall have the absolute right to bifurcate the issues of liability and damage upon written request to the neutral arbitrator.

The parties consent to the intervention and joinder in this arbitration of any person or entity that would otherwise be a proper additional party in a court action, and upon such intervention and joinder any existing court action against such additional person or entity shall be stayed pending arbitration.

For any significant after-hours medical problems, patients must contact their primary care doctor or go to an emergency room. Dr. Jensen is available during business hours on M-T-W-Th, and schedules most appointments via Telehealth. He will answer e-mails within 24hrs unless otherwise noted. Please check your spam or junk email folder for lost correspondence. Supplement recommendations are sent via FullScript.

An in-office consultation is required at least once per year to renew prescription hormone therapy, except in unusual circumstances. A phone or office consult is required to renew prescriptions. Patients should have labs drawn soon after the date specified so that an appointment can be arranged before refills run out. Patients may submit paid invoices to their medical insurance, but not all will reimburse for services provided by a non-participating physician. Lab tests and hormones are generally covered by Medicare or PPO private insurance plans if the insurer agrees that the test or prescription is necessary.
